Source: This information was obtained from the Hospital Admission Card data file (1944-1945) created by the Office of the Surgeon General Department of the Army. In 1970 the National Research Council first compiled this for statistical purposes using the EMTs (Emergency Medical Tags) and other Office of the Surgeon General Office Records during WWII.

A white marble cross-shaped gravestone stands on a green lawn. The stone is a simple Latin cross. The horizontal bar of the cross is engraved with the name and details of the deceased. The vertical stem of the cross is plain. The background is a well-maintained green lawn with some shadows cast by other graves.
